

**90si**

### **90si Upgrades, Trade-Ins, Pre-Orders & Production Estimates!**

#### **Current Status**

We are making excellent progress on the development of the Asynchronous secure fax protocol. In addition to adding the Async protocol we have eliminated the DIP switches on the bottom of the unit and made choosing a transmit protocol much easier. Also in the works is a means of remotely delivering future software upgrades. We think you will like what we have done.

#### **Upgrades and Trade-Ins**

Discounted upgrades and trade-in's for all fielded 90si's will be available. The following list breaks down the costs and type by date of shipment. We have placed a serial number [look-up chart](#) on our web site to confirm the exact costs and type for your unit(s) along with ordering procedures.

<u>90si Shipment Date</u>	<u>Cost</u>	<u>Type and Estimated Start Date</u>
1 NOV 2008 and Newer	Free	Mail-In Upgrade (starting in SEP 2009)
1 NOV. 2007 to 31 OCT 2008	\$549	Mail-In Upgrade (starting AUG 2009)
1 NOV. 2006 to 31 OCT 2007	\$999	Mail-In Upgrade (starting AUG 2009)
31 OCT 2006 and Older	\$1499	Trade-In (starting AUG 2009)

**IMPORTANT:** You must [REGISTER](#) for your free upgrade(s).

These prices include CONUS shipping and a 1 year parts and labor warranty. OCONUS shipping to an APO or FPO address is available for an additional \$28 per unit.

#### **Pre-Order Now!**

We will begin accepting pre-orders for paid upgrades and trade-ins immediately... for first-come-first-served shipment when the production units become available. You may fax or e-mail your government PO's or call /e-mail us to place a credit card order (VISA or MC). For credit card orders we require the following information: card number, expiration date, security code, card holders name, complete bill-to address, card holders e-mail address and commercial phone and fax numbers, ship-to address (no PO boxes) with point-of-contact & commercial phone number.

#### **Production Estimates**

Please send us an e-mail if you plan to upgrade your 90si(s) along with the serial numbers in question so that we can adequately plan production quantities. My e-mail address is [AndyChambers@gwfs.com](mailto:AndyChambers@gwfs.com)
